1. Attached are hardcopy listings for the two restricted files which were requested in the referenced memorandum. These files are for the DRI Restricted Report for Consumers with zip code (PPDRZIP) and those for internal distribution which includes those without zip code (PPDRNOZ). The unrestricted files would be produced in the same manner. Also included are listings for the China Report Agriculture (CAR) JPRS Report with restricted distribution.

2. Per the referenced phone conversation, we are including a run from the label making process. It should be noted that in our conversations with Evelyn at OIT Output Services Branch, telephone number [redacted], that only six25X1 lines can be put on a one-inch label. We can provide, electronically via VM, a copy of the JCL necessary to print the STS system generated files on the label maker. In addition, a problem was encountered with the production of the labels which can be seen in the attached test run. Further investigation of fonts, and form control will be needed in order to attain the correct print format. No further action on this will be taken by us at this time.
